FH Sketch

The sketch application you've been asking for is here. Designed for the way you work, both in the field and at the station, FH Sketch and FH Sketch Mobile are now available with the Firehouse Software Occupancy Module and Mobile Inspections. The intuitive interface and seamless integration makes drawing, modifying, updating and exporting pre-plans simpler and easier than ever.

Fast, Easy & Accurate

Take advantage of sketching software 20 years in the making, designed to optimize workflow in the field and at the station. FH Sketch and FH Sketch Mobile are the most user friendly and intuitive sketching applications in the industry.

Seamless Integration

Benefit from seamless integration within the Occupancy Module and Mobile Inspections, which saves time and eliminates double work.

Supports Multiple File Formats

With FH Sketch, you can easily import sketches created in another program or obtained from a city planner, assessor or paper file using Photometrics. Supported formats include dwg, dxf, png, pdf and jpg.

FH Inspector for iPad

Innovation Meets Application: FH Inspector for iPad™ is the latest innovation from FIREHOUSE Software, the industry's leader in Fire and EMS software solutions. FH Inspector unleashes the power of today's most creative and dynamic technology, raising the bar on the industry's fire prevention and planning activity. FIREHOUSE Software has combined iPad's trademark interface and live GPS with your inspections, pre-incident plans, and permits, allowing your department to tackle more inspections, faster and easier than ever before.

FH Barcoding

Scan. Report. Relax. FH Barcoding makes quick work of critical inventory tracking tasks. Tag your equipment, then track it, its condition, location and maintenance quickly and simply, across staff and shift changes, without missing a beat. FH Barcoding ensures better accountability, reliability, and efficiency, making your job a little more enjoyable, and a lot more secure.

Works seamlessly with FH, so all of your information, records and reports are easily accessible whenever you need them. Repairs, scheduled maintenance, events and changes are all recorded and updated easily, so nothing gets lost in the shuffle or the shift change.

**COMPREHENSIVE
3 YEAR
PROTECTION PLAN!**

SHIPS WITH:

Motorola MC3100 Scanner

Purpose built for harsh environments, this rugged design easily handles drops, bumps, dust, grime, exposure to liquids and just about anything else you want to throw at it.

- Qwerty key pad for easy data entry
- Dynamically rotating touch screen
- One touch scanning

1000 Bar Codes

Each scanner ships with 1000 super-durable, water-resistant, indoor/outdoor barcode stickers that can be used just about anywhere.
